RATING STATUS

We declare that
Woodenbridge has
passed all of the rating
steps and has earned the
Diamond Certified award.
Certificate No. 562

Woodenbridge of San Jose specializes in creating cabinetry, custom kitchens and fine joinery and offers complete design, build, finish and install services. Chief designer David Baeza grew up in a family of woodworkers and started doing cabinetry work at the age of ten. Today, he builds custom, high-end cabinetry for homes and businesses throughout the Bay Area.

woodenbridge

A Woodenbridge project

Woodenbridge is a full design and manufacturing facility. They have thousands of design options and combinations available. If you can dream it, Woodenbridge can build it. Cabinetry is designed specifically to meet each customer's requirements and a photo-realistic 3-D rendering will be shown for approval before any construction begins. All cabinetry is handcrafted in-house—absolutely nothing is subcontracted—and every cabinet is built with hand-selected lumber with no nails in the front facing frames.

COMPANY PHILOSOPHY

"We communicate with our customers on a very personal level, and keep them involved in all phases of the design, build and installation process. We want to know what they're thinking, what they have on their mind. And we especially want to know if there's anything they're not happy with! At the end of the day, we want to leave knowing they won't hesitate to call on us again."

EXCERPTED SURVEY RESPONSES

"I like the quick turn around. All the small things I pointed out were taken care of and the quality was great. I recommended them to a lot of people."—Sean E.

"They were very professional, responsible and conscientious. He followed through with everything he said he'd do, and everything was done in the time he said it would be done."—Amy N.
