Comments: Dear Dave and Dave, Thank you for sending Sal and the young man out to the house today. Sal is excellent. The light valance is on above the sink the skins are ironed out and look great, one might get a light sanding on Sal's recommendation. The shelves got more screws so they can hold all the stress I am putting on them. The light valance is on under all the cupboards, The shelf is in the one cupboard, the molding is on around the floor on the island. The door is on the garbage rack! It's really looking nice. I'm so happy! Thank you for having such nice employees. Sal has a gift with wood and measurements. See you again when the lights and the rest of the handles come in. Thank you. [REDACTED]
