Hi Tammy,

Thank you all so much for the diligence in your work and getting us through a rough year! The kitchen is beautiful and completely functional for our way of cooking and living. It's amazing how it feels like it's been here the whole time just waiting for us to live in it. I love that.

Side note to husband: Terry, don't forget the wine refer isn't working...time to call Mauser and Rubin for the fireplace....anyway back to Woodenbridge.

We do have a set of cabinet doors and frame that Manuel took measurements for, he said he would have them in a couple of weeks. Also, he was going to build two "boxes" for me to raise my W/D up a bit. Maybe the touch up Terry is speaking of and these items could be done at the same time.

Thanks again to you and a special thanks to David for hanging in there with us. It wasn't easy, we know. His final designs were everything I could have hoped for.

Last, thank Manuel for everything...and for fixing the front door! You are very fortunate to have a father-in-law like him and the kids to have a grandfather like him! He is so warm and such a delight to work with.
